

CAUGHT YOU CARING!

Morrill County Community Hospital's mission statement focuses in our desire to exceed the expectations of our patients and families and provide them the highest quality health-care services possible. The Caught You Caring recognition system is designed to recognize employees, volunteers and members of our medical staff for providing services above and beyond high standards of care.

The nomination procedure is simple, when you see an employee providing services above and beyond:

1. Complete a nomination card that identifies the employee
2. Write a description of the action being recognized
3. Return to Human Resources (for employees) or to the Front Office of the main Hospital lobby (for patients)

Employees, patients and their families, and members of the community are invited to nominate any Morrill County Community Hospital and Clinics employee. Results of the Nomination will be posted on the MCCH Website on a monthly basis.

Note: *Nomination Cards are available at the Dining area and Main lobby of the hospital.*
