

How is security maintained during the transfer of information?

Security is of utmost importance when transferring personal data across the Internet. 128-bit SSL encryption is used; this provides a secure connection between you and the server.

☰ Patient Portal

What is Patient Portal?

A patient portal is a secure online website that gives patients convenient 24-hour access to personal health information from anywhere with an

Internet connection. Using a secured username and password, patients can view health information such as recent Doctor visits.

How does the Patient Portal work?

You can access the Patient Portal from any computer with an Internet connection. You simply click on the Patient Portal link on the web site or go directly to <https://patientportal.intelichart.com>. From this screen, you may enter your log-on information, and can then view your chart online.

What features does the Patient Portal include?

- View your health information online
- Secure communication between you and your Provider
- Convenient online access whenever and wherever you need it
- Fast and Free!

Getting started is easy, all you need is a valid email address to activate this service.

How to Access Patient Portal?

Once you have your unique PIN, follow these easy steps to get registered!

1. Click on the link provided in your verification email or go to <https://patientportal.intelichart.com> and enter your PIN.
2. Enter your PIN and your last name, click continue.
3. Enter your personal information, click continue.
4. Enter your security information and click complete registration.

Once you have finished, you will receive a verification email. Click the link provided to complete the registration process.

Congratulations!
You now have a secure Patient Portal Account.

If you **did not** receive a PIN, follow these easy steps to get registered!

1. Go to <https://patientportal.intelichart.com> and click “Don’t have an account? Register for free!”
2. Select “No” I don’t have a PIN from my doctor’s office.
3. Select who you are registering for. (yourself or a dependent)
4. Enter your information and click continue.
5. Enter your security information and click complete registration.

Once you have finished, you will receive a verification email. Click the link provided to complete the registration process.

Someone from our Patient Portal Team will verify your account as soon as possible to grant you access to your medical records.
